

Course unit title:	Senior Project
Course unit code:	CSW490
Type of course unit: (Compulsory/optional)	Compulsory
Level of course unit: (First, second or third cycle)	Bachelor (1st cycle)
Year of study:	4
Semester when the unit is delivered:	7
Number of ECTS credits allocated:	10
Name of lecturer(s):	TBA (Chairperson)
Learning outcomes of the course unit:	
<p>Upon successful completion of this course students should be able to:</p> <ul style="list-style-type: none"> • Apply the theoretical knowledge gained in previously studied courses in order to design and implement a software product. • Develop a project report. 	
Mode of delivery:	Class Instruction, Consultations, Research, Defense of the Thesis
Prerequisites and co-requisites:	Senior standing
Recommended optional program components:	None
Course contents:	
<p>Objective: The aim of this course is to provide the student with experience in project planning, as well as facing the problems of designing and collecting information for the production of a complete top-to-bottom design and implementation of a project.</p> <p>Description: A project in the area of Web and Information Systems or Computer Science is chosen by the student, subject to faculty approval, who makes a literature survey, design and, if appropriate, test the project and present a written report upon which s/he orally examined. The project work is supervised by a member of the Computer Science department.</p> <p>Recent developments and contemporary issues pertaining to the subject-matter of the course.</p>	

Recommended or required reading:	The 490 departmental policy (internal publication)
