<http://www.inderscience.com/browse/index.php?journalCODE=gber>

SCOPE

Thinking twice about what the regulators can do in terms of financial and economic crisis for the practitioners, academia and the citizen, there is a proactive trend that shows that organizations and systems can still be penetrated or protected from inside. From this perspective we invite you in this special session to challenge and debate in your presentation how firms of various sizes and industries can improve their stake and results through strengthening risk management strategies, techniques and processes? In particular we would be interested to discuss stakeholders’ policies, new practical approaches and good practices in risk management, the integration of new financial product innovation, new technologies in risk management, risk management sustainability in organizational behaviour and case studies.

Papers are invited for this Special Session in Risk Management in SMEs and Corporations-A crisis management approach that will take place within the 1st International Conference in Safety and Crisis Management in the Construction, SME

and Tourism Sectors (1st CoSaCM) on 24 June 2011. All accepted papers through peer review will be published in the Conference proceedings, bearing an ISBN number.

The session will be chaired by Dr. Simona Mihai Yiannaki and Dr. Loukia Evripidou from the European University of Cyprus. Best Full Competitive Papers will be published in International Journal of Organizational Analysis (IJOA) (on Emerald) and on Global Business and Economics Review (GBER) on Inderscience Publishers Ltd.
